30/1#

\$2.11
per lb

The Power of Purchase Program (PoPP) is a program designed to allow agencies to stretch their food dollar. While this program provides a much needed service it is less than 3% of 18M+ pounds we distribute annually. The Idaho Foodbank NEVER sells donated food. These are all items we have purchased in large quantities and are passing along the savings to our community partners. This list is constantly evolving and exists to fill the needs of the partner agencies. If there are items you'd like to see added to this list please contact Food Sourcing Manager Lynn Dill ldill@idahofoodbank.org

For additional information about the Power of Purchase Program and to see other available items visit our website: Pictures may not be identical to packaging of product.
