Children’s Programs
PROGRAMS OF THE IDAHO FOODBANK

NOVEMBER 2023

Childhood Food Insecurity:
Idaho is home to more than 40,000 kids with food insecurity – the lack of access at times to enough food to support a healthy and active lifestyle. Knowing that more than 8% of children in Idaho may not get enough to eat is a problem by itself, but its implications extend well beyond hunger pangs.

Our Impact:
We can help our children to grow and learn through supporting their nutritional needs and providing families with access to additional resources to live healthy lives and thrive.

The Backpack Program is a collaboration with public schools to provide bags full of food that fit in a child’s backpack so that kids who are hungry have food during the weekend when school meals are not available. The program delivers discreet, lightweight bags that contain two breakfasts, two lunches, two dinners, and two snacks – enough food to nourish the kids over the weekend.

The Foodbank’s registered dietitian prepares the menu to ensure the highest levels of nutrition possible for each meal and balancing the size and weight of the pack. Backpack foods must be shelf-stable, “kid-friendly,” and easy for a child to prepare when there is not an adult around. To ensure these requirements are met, we purchase all the food distributed through this program.

Students in need are extremely concerned about getting their backpack food. It carries them through the weekend. They get so excited when they pick them up.
