

How to put together a Food Drive Barrel

Please do not glue, paint, or permanently alter the barrels in any way. We may reuse them.

1. Turn upside down and expand. (See Figure 1)

2. Fold down U-shaped flap (1) first, then fold side flaps in (2, 3). (See Figure 2)

3. Fold down final flap (4) and tuck tab under U-shaped flap (1). (See Figure 3)
